### **Prosser Receives Clean Audit Report**

On October 3<sup>rd</sup>, representatives from the Washington State Auditor's Office reported on the City's financial accountability and financial statements. The reports contain the results of their audit for the year 2015. Their report states that the "City operations complied with applicable requirements and provided adequate safeguarding of public resources" and that "the City also complied with state laws and regulations and its own policies and procedures." The City is proud of the results of this report. It reflects the continued improvements to the quality of financial reporting and accountability and our dedication to being good stewards of the public's resources.

Each year representatives from the State Auditor's Office review portions of the previous year's activity. These audits provide essential accountability and transparency for City operations. They work to ensure that the City is following, not only its own policies and ordinances, but that it is also following State and Federal laws and guidelines as well. Once the review is complete, Auditor's collect their thoughts and notes and issue and audit report and deliver it to the City.
