October 19, 2022

We want to sincerely apologize for the city's scarecrow entry. This was in no way intended to be a political statement, a likeness to any individual or community group.

We have investigated the issue internally and found that no one who participated in creating the entry intended any malice. These actions were regrettable, but unintentional.

Regardless, we understand that design was offensive to many people and we are sorry. Moving forward, there will be staff training as to why this was insensitive and offensive to many in our community.

It has been taken down and the city has withdrawn from the competition. Again, we extend a sincere and genuine apology.

Sincerely,

A handwritten signature in blue ink that reads "Thomas Glover". The signature is fluid and cursive, with the first name "Thomas" and last name "Glover" clearly legible.

Thomas Glover
City Administrator
