Community Center: Suspension of City Programs

The City of Prosser is following the recommendations of the Benton Franklin Health Department and will continue to suspend City recreation programs for senior citizens until further notice. Other recreation programs will be evaluated to determine their risk as well as their compliance with the latest recommendations from the Health Department and directives from the Governor.

We encourage other community organizations to review their own programming and determine the best response.

At this time there are no interruptions to City services.

We appreciate the Benton Franklin Health Department, community partners, and neighboring agencies for their continuing support. We would ask all citizens to follow the guidance of the Health Department which can be found at www.bfhd.wa.gov

"The City of Prosser is committed to ensuring the safety of our citizens and providing them with the latest information regarding COVID-19. We want to thank everyone in advance for their patience and cooperation." - Steve Zetz, Community Development Director
